IMS Policy Statement

Forge Europa's Integrated Management System Statement

Forge Europa aims to fulfil its social, ecological, legal and economic responsibilities for sustainable development and meet its customers' needs by supplying services and optoelectronic products specifically light emitting diode lamps, displays, lighting and assemblies that are provided to the highest professional standards, energy efficient and involve the economic use of natural resources. We strive to be better than the statutory requirements.

Top Management shall pursue this aim through the active engagement in the implementation of an integrated management system involving all personnel that is committed to considering relevant internal and external issues and compliance obligations and to meeting agreed business objectives and targets to ensure continuous improvement and innovation across the organisation. We aim to enhance our environmental and quality management and customer satisfaction through providing necessary information, developing personnel knowledge and skills, using written procedures that are monitored for effectiveness and by actively managing our internal and external supply chains.

In addition, to promote good environmental practice Forge Europa is committed to:

1. Identifying and assessing the environmental impacts of its activities, products and services
2. Complying with applicable environmental legal requirements and other requirements to which the company subscribes which relate to its environmental aspects.
3. Continual improvement in environmental control and influence as well as the prevention of pollution.
4. Communicating its IMS policy to persons working for or on behalf of Forge Europa, to suppliers, to customers and to other interested parties.
5. Ensuring its suppliers support the company in its Integrated Management System appropriately.
6. Planning, establishing, implementing and maintaining the processes needed to meet the requirements of BS EN ISO 14001:2015 and 9001:2015 taking into consideration Forge Europa's context and interested parties.
