

low energy leisure lighting

# leisure lighting

# why forge?

The key to simple, effective, low-energy lighting is with an LED solutions partner who knows LED like the back of their hand, has years of experience manufacturing solutions for leisure and does all the work for you.

We know it sounds too good to be true, but it isn't. With Forge we'll do just that. Custom as standard.

Why custom?

- gives you a USP
- designed just for you to your cost target
- manufactured just for you to your cost target
- delivers a product that performs to your expectations
- it does what it says on the tin

- 24 years in the business
- we design and manufacture the complete luminaire
- provide testing, IES and Eulumdat files
- meet specific testing requirements that are applicable to your industry
- dedicated account management for excellent customer service – always

Take a look at just some of the possible solutions we can develop with you and manufacture in volume for you.

# spotlight

The perfect solution when creating feature lighting throughout a caravan, motor home or holiday home. To create truly exceptional lighting throughout your application make your spotlight, your way.

From under cabinet, bed side illumination and task lighting, the spotlight can do it all. In sizes and shapes to suit your requirements.

Colour temperatures can be chosen to create ambience and we'll select the best LED to meet your lumen and efficacy targets. If you need a spotlight that packs a punch or one that creates subtle lighting effects we can do it.

In addition to switches and finishes you can also choose the connector that works best for you, to ease the assembly in your application.

# downlights

Simple yet stylish, a compact, recessed downlight can be used anywhere.

Use as a decorative feature in kitchen areas - consider under cabinet and kickboards. Highlight key design features in living spaces and create subtle lighting effects in sleeping areas.

Choose the colour temperature and finish to suit your requirements. It's even possible to make it IP65 rating giving you more uses than ever.

Connectors to suit your needs and enable easy assembly. Check out just a few of the customisable options you can consider for your recessed downlights. Choice of sizes from as small as 35mm to 175mm diameter.

# flexible LED

Possibly the most versatile solution available to really enhance your lighting. Easy to use and versatile flexible LED can be used virtually anywhere. Consider mirror illumination, shelf lighting, dressing areas and more.

With optional finishes that take flexible to IP65 rating, this solution becomes even more versatile. Create feature luminaires for high impact and a real USP in your application.

We can supply the solution on reels of up to 5 metres, but also supply cut lengths wired ready for use. As standard our flexible LED is supplied with adhesive backing for even easier application.

With your choice of colour temperature flexible LED is the perfect addition to your lighting schemes, creating exceptional lighting with minimal effort.

# exterior lighting

The ideal finishing touch. Exterior lighting can be your first chance to make a big impression so don't overlook it.

Designed and manufactured by us to add style to your application. With the ability to use your own logo on the products, you can strengthen your brand in one simple move.

Incorporate motion sensor technology to ensure your clients are never left in the dark.

We can create exterior lighting for pathways, bollard lighting, fixed lighting solutions and more. All suitably IP rated for the great outdoors.
