

Assembly Technician

Forge is excited to be recruiting for a hands-on Assembly Technician who will take pride in the manufacture of a wide range of electro-mechanical assemblies.

The Role:

- Work to mechanical drawings and follow detailed manufacturing instructions
- Handle and hand solder electronic components to PCBs
- Understand and manufacture electro-mechanical assemblies
- Wiring and cable harness assembly

Key Skills:

- Understand and have experience of small, electro-mechanical assemblies
- Able to hand solder small components
- Experience of working in a technical or manufacturing environment
- Good level of IT literacy including all MS Office software
- Numerate with good attention to detail
- Keen to learn and able to develop a strong understanding of our technical products

Additional Useful Skills (preferred but not required):

- Report writing
- Quality Control inspection experience
- General handyperson skills

We offer:

- Full-time permanent role (part-time considered)
- Great salary and benefits
- An exciting work environment in a great part of the world

Why Work for Us?

Forge has exciting plans for 2021/2022. We are really good at designing and making a huge variety of cutting edge LED products and have a great 'can-do,' flexible approach to business. We serve a huge variety of customers across many national and international markets, so every day is different.

Please visit www.forge.co.uk or contact jobs@forge.co.uk or phone 01229 580000 for further information and the closing date for applications.

To Apply

We are looking to recruit as soon as possible. Please send your CV together with a covering letter to jobs@forge.co.uk outlining your current salary (if applicable) and explaining why you think you are just the person for this role.
