

Quality Assurance Engineer

Forge, a market leader in custom LED lighting solutions, is looking for a dynamic practical Quality Assurance Engineer who can manage its robust and established Quality Control operation on a day-day basis. Do you have quality assurance experience and technical ability? Could you liaise with customers and suppliers both in the UK and worldwide relating to quality matters?

This is a full-time role (37 hours, Monday-Friday) Part-time considered.

Key Responsibilities

- Responsible for the Quality of Manufacture of LED optoelectronic components, LED assemblies & LED lighting products as well as related goods
- Incoming & outgoing goods inspections.
- Customer liaison/contact for quality-related matters.
- Supplier quality monitoring, analysis, evaluation & development.
- Continuous improvement of the company's Quality Management System.
- Internal auditing & external auditing (suppliers and customers).

Skills/Experience:

- Proven experience of mechanical, electrical/electronic & optical metrology
- A degree or HND in a relevant Science or Engineering discipline preferred
- Experience of working in a manufacturing environment
- Experience of ISO 9001 Quality Management System preferred
- Experience of ISO 14001 Environmental Management System is an advantage
- Knowledge, understanding and practical experience of statistical quality control techniques & methods
- IPC610 practitioner (preferred but not mandatory)
- Good communication skills able to deal effectively with customers and suppliers
- A problem solver, who is self-motivated with a 'can-do' attitude and a good eye for detail
- Commitment to continuous improvement

Why Work for Us?

Forge has exciting plans for 2022. We are really good at designing and making a huge variety of cutting edge LED products, a previous Queen's Award Winner for outstanding innovation, and very handily located on the edge of the stunning Lake District. We are committed to quality control and are accredited to both ISO 9001:2015 and 14001:2015.

Based in Ulverston in the South Lakes, you will be a key part of our technical team, reporting to our Technical Manager.

Benefits include:

- Great working atmosphere
- Internal training and support
- Competitive salary based on experience and qualifications
- Profit Share Scheme
- Holiday buy back options and flexible working hours arrangements
- Free on-site parking and close links to public transport

Our location offers the best of life/work balance as you can walk straight out of work and into the Lake District as well as enjoy life in a vibrant market town.

Please visit www.forge.co.uk or contact jobs@forge.co.uk or phone 01229 580000 for further information.

To Apply

We are looking to recruit as soon as possible. Please send your CV together with a covering letter to jobs@forge.co.uk outlining your current salary (if applicable) and explaining why you think you are just the person for this role.
