# “Driverless” LED Solutions

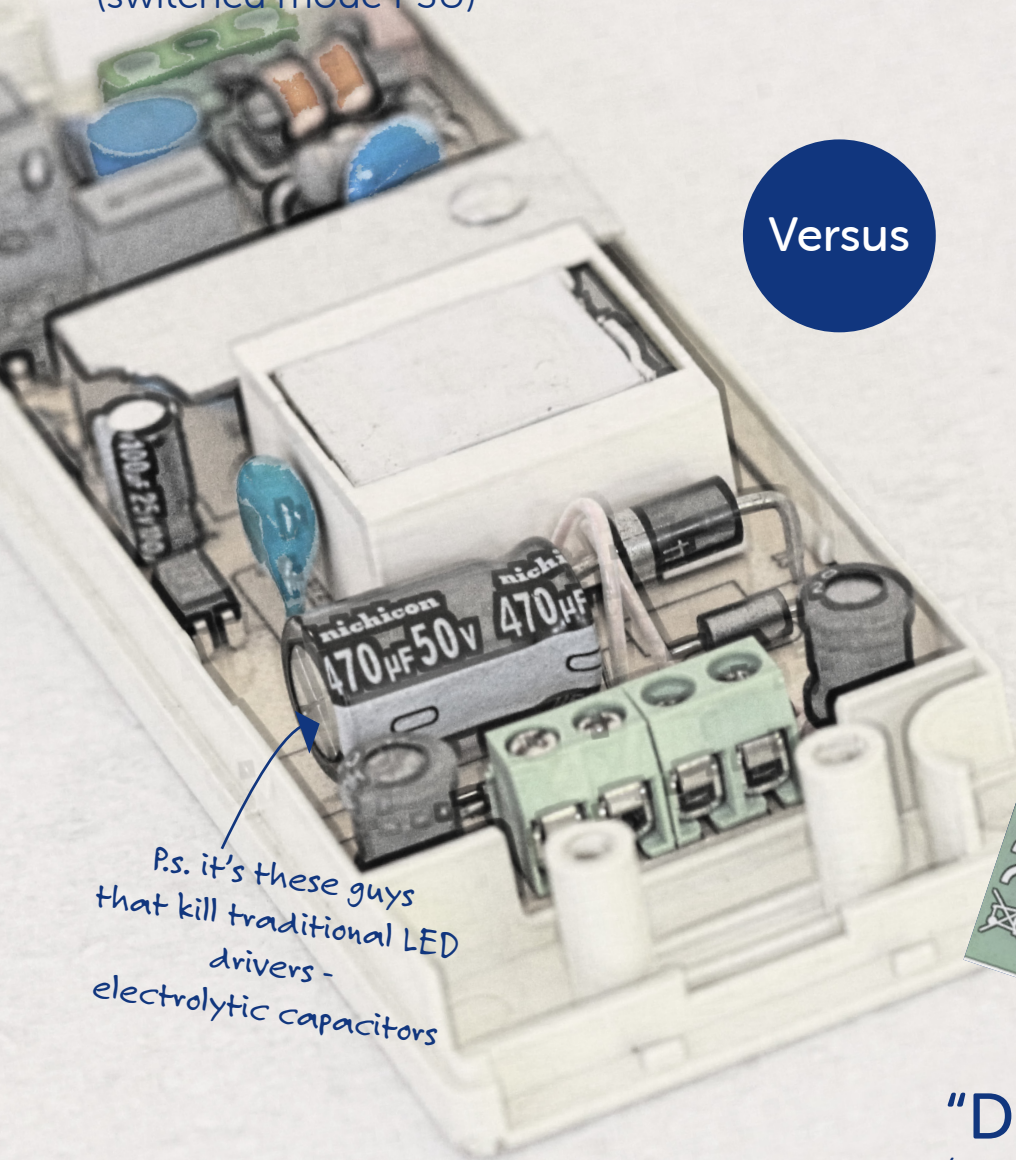

Get on board with on-board electronics

# Traditional Driver

(switched mode PSU)

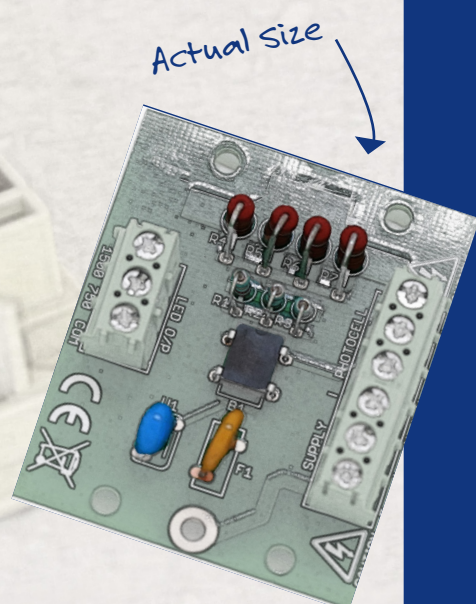

*P.s. it's these guys that kill traditional LED drivers - electrolytic capacitors*

Versus

# "Driverless"

(passive electronics)

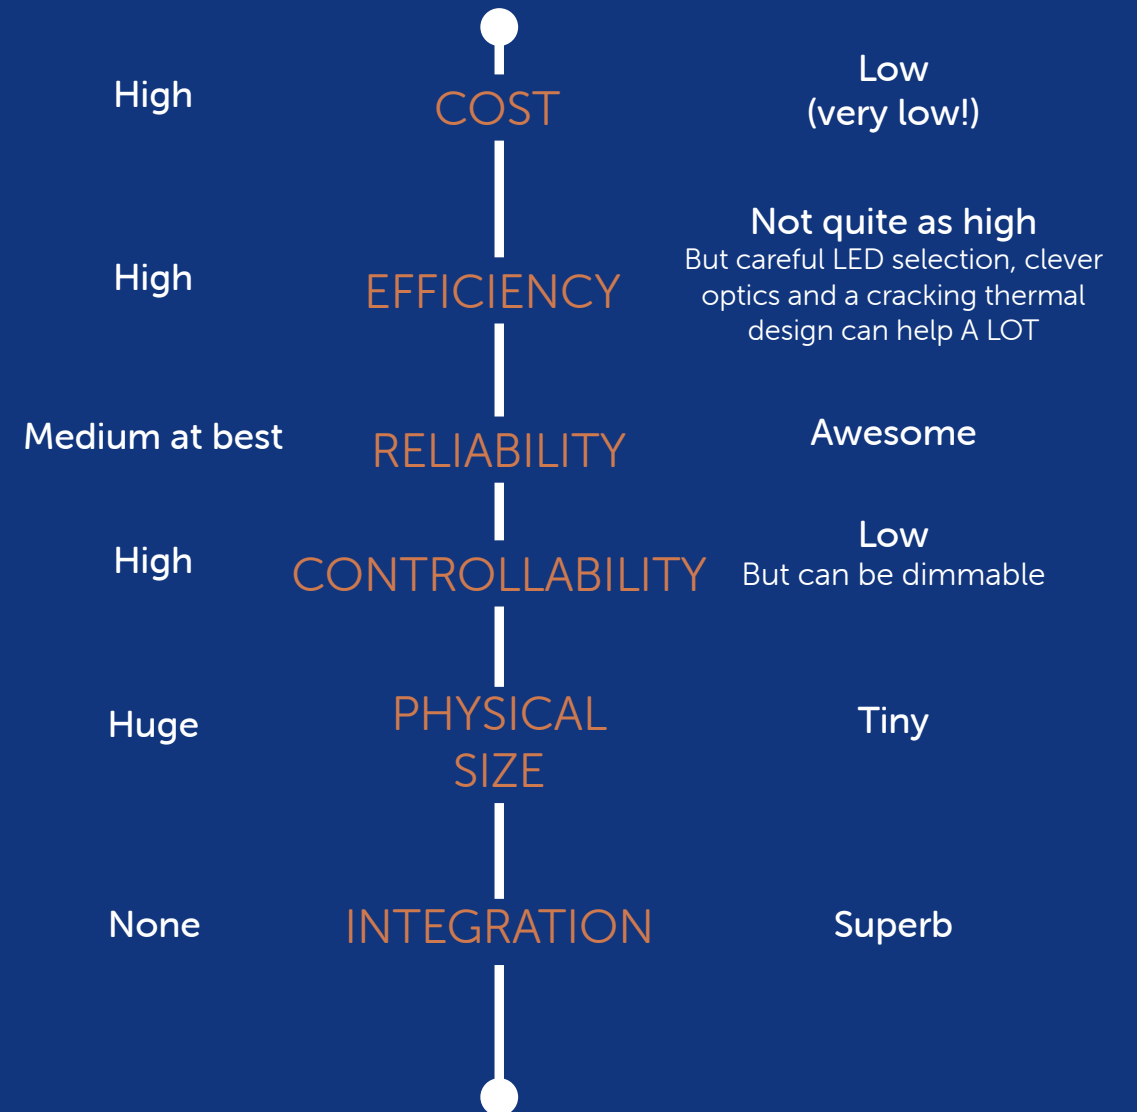

# Traditional Driver

(switched mode PSU)

# "Driverless"

(passive electronics)

# COMPLETE LED SOLUTIONS

## WHY FORGE?

With our profound technical knowledge and ability to make all sorts of stuff, we're your ideal manufacturing partner.

## INTEGRATED "DRIVERLESS" TECHNOLOGY

When we design and manufacture your LED product we: select the best LED, incorporate a custom precision optic, sort your thermals and design electronics that give you what you want.

## A MANUFACTURING PARTNER

We're sustainable, safe and forward-thinking. Our attitude has kept us here since 1993 and continues to drive our business to this day. With Forge as your manufacturing partner, you'll have access to our: -

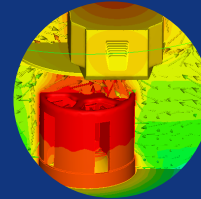

- profound technical knowledge
- commercial nous
- intelligent approach
- tenacious, innovative people

What more could you need?

LED  
selection

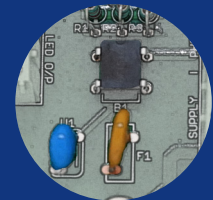

custom  
optic

cracking  
thermals

intelligent  
electronics

Call us today to discuss your application and get your hands on your own custom LED solution.
